MY WORK

Web development / Graphic Design

1. **Spark Africa Ltd** | KIGALI | www.sparkafricagroup.com

   - I designed an official website for *Spark Africa ltd*.

   - I am a web master of SPARK Africa ltd

   - I am the one who design all the graphic materials to put on this website.

   2. I developed and tested an **offline application that helps schools to generate academic reports easily and fast without engaging teachers in the calculations and analysis of marks**; all the teacher does is to fill in the marks and then the system does the rest i.e: Calculations, Ranking by position and percentages.

Other things that the system does are:

- Sending Mobile SMS to parents in case of emergency or even quick school communications like letting parents know when the parents meeting is, etc.

3. **Press Rwanda news Website**| www.pressrwanda.com

   - I designed Press Rwanda news site

   - I do maintenance for this website

4. **Rwandaplay** | www.Rwandaplay.com

I designed this video sharing website and I am the one who will lead the redesign process of this website.

5. **I am very good in graphic design**

So in during my free time I design logos, marketing materials, banners, online graphic Ads, Abstract designs, etc.

6. **I also worked on other software which are not yet out on the market**

e.g.: African Initiative for Child and other software

OTHER WORK

1.   I worked with UNDP as a qualitative researcher leading a team of quantitative and qualitative research.

2.   I worked at UNICEF Rwanda developing an application that was going to help students and teachers in Rwanda to know more about **SDGs.**

3.   I am working with the best health care e-commerce system in Rwanda as a software engineer.

4.   I won 2015 programming hackathon that was sponsored by UNICEF, Klab, MYICT and other big entities in Rwanda.
